

# Adding a New Wiki

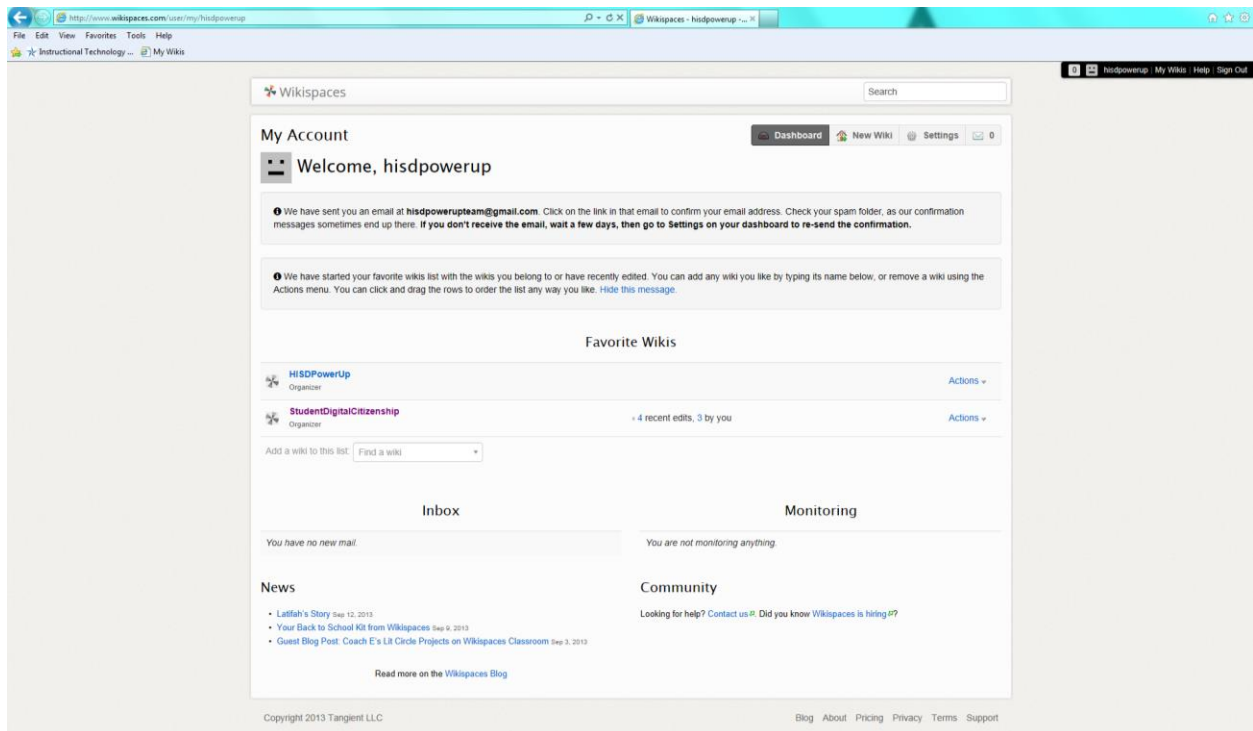

If you want to have multiple wikis for different classes, they're all stored on the dashboard page or if you'd like to make your wiki public, we have all the steps for you here.

Target Audience: Teachers wanting to add content specific materials to the wiki

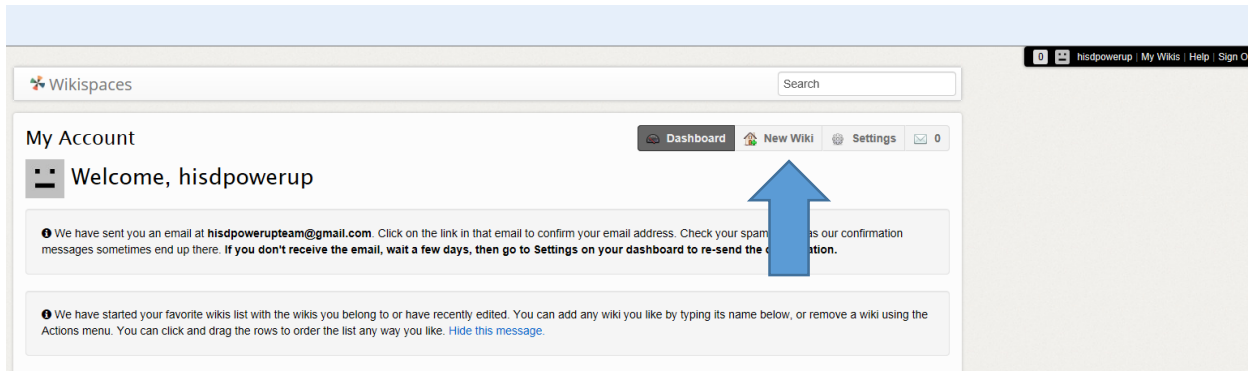

Prerequisite: Already created a wiki account

Be the end of this tutorial you will be able to:

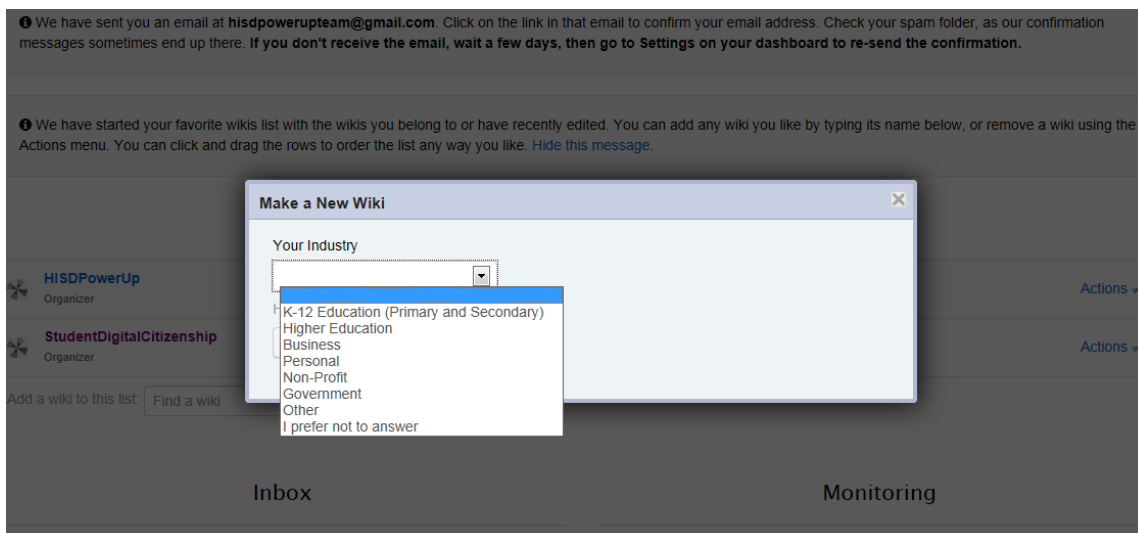

- Create a new wiki within the same account
- Make your wiki public

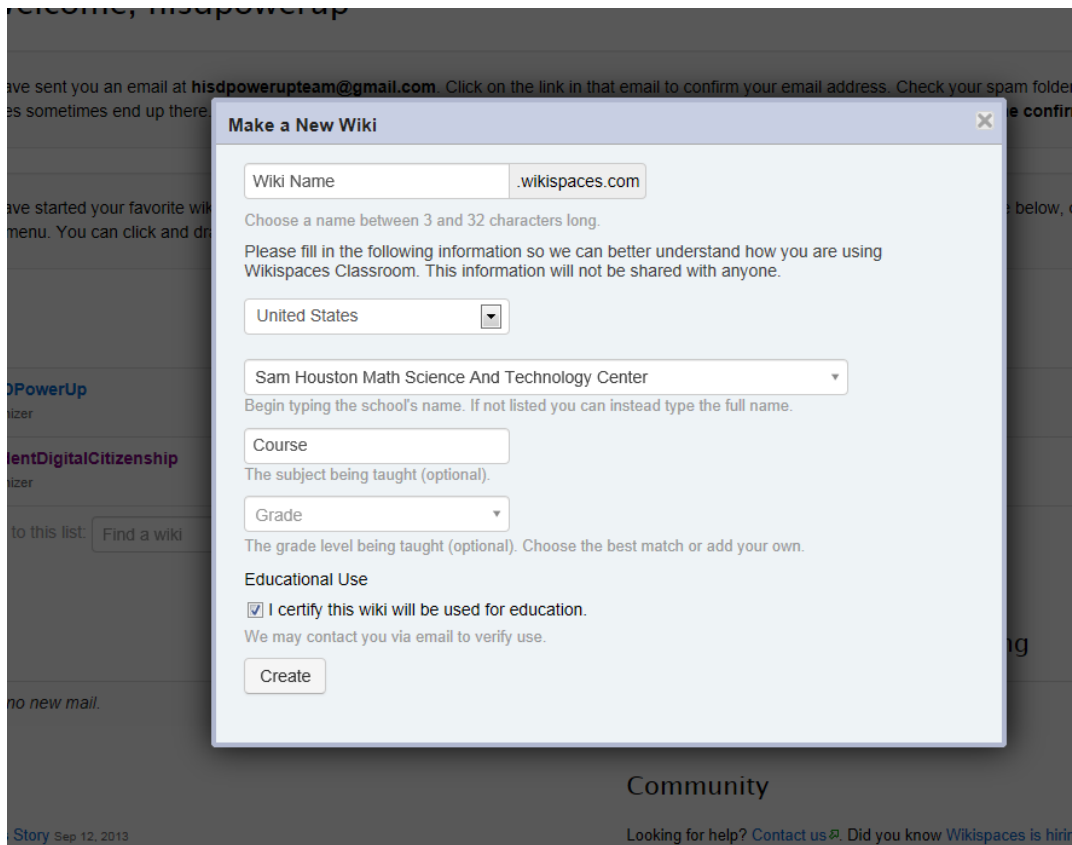

When you first login to your account, your wiki dashboard is the first page you'll see. This is where all the wikis you've created are stored.

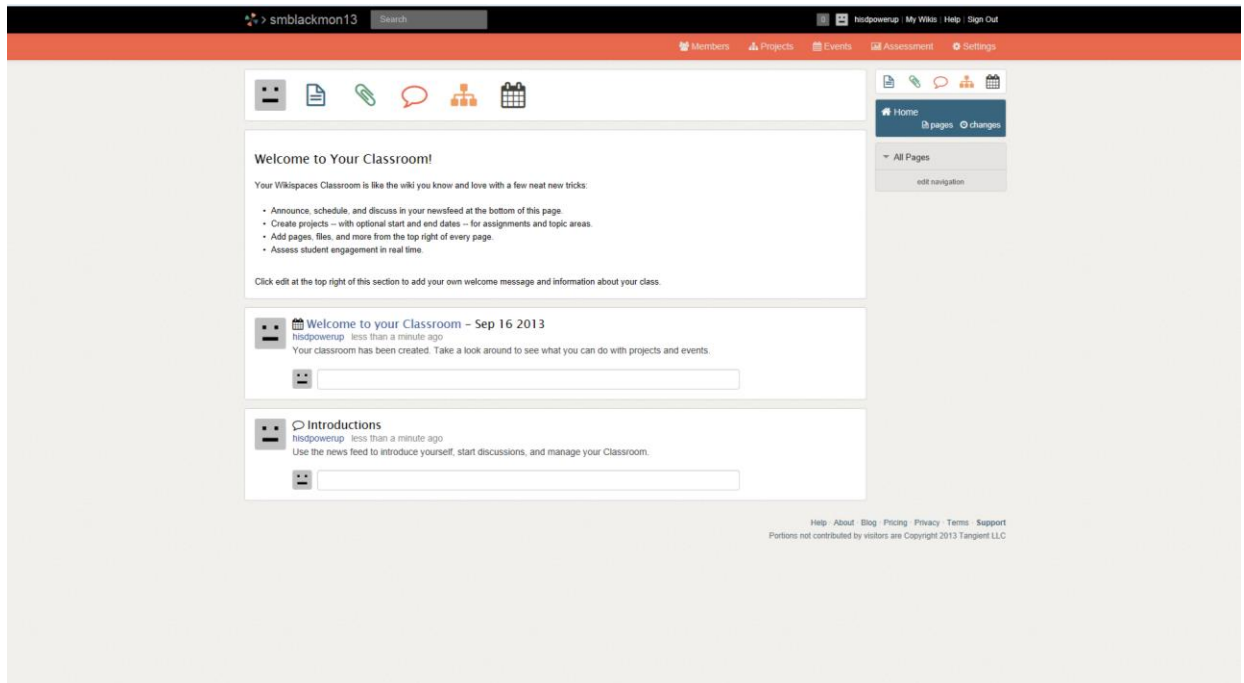

At the top of the dashboard, choose "new wiki" tab.

On the next screen, choose from the drop-down menu, k-12 education and click continue.

The next screen allows you to choose the name of your wiki and other optional information. Click create

Your new wiki is ready for edits.
