

Setting Your Wiki to Public View

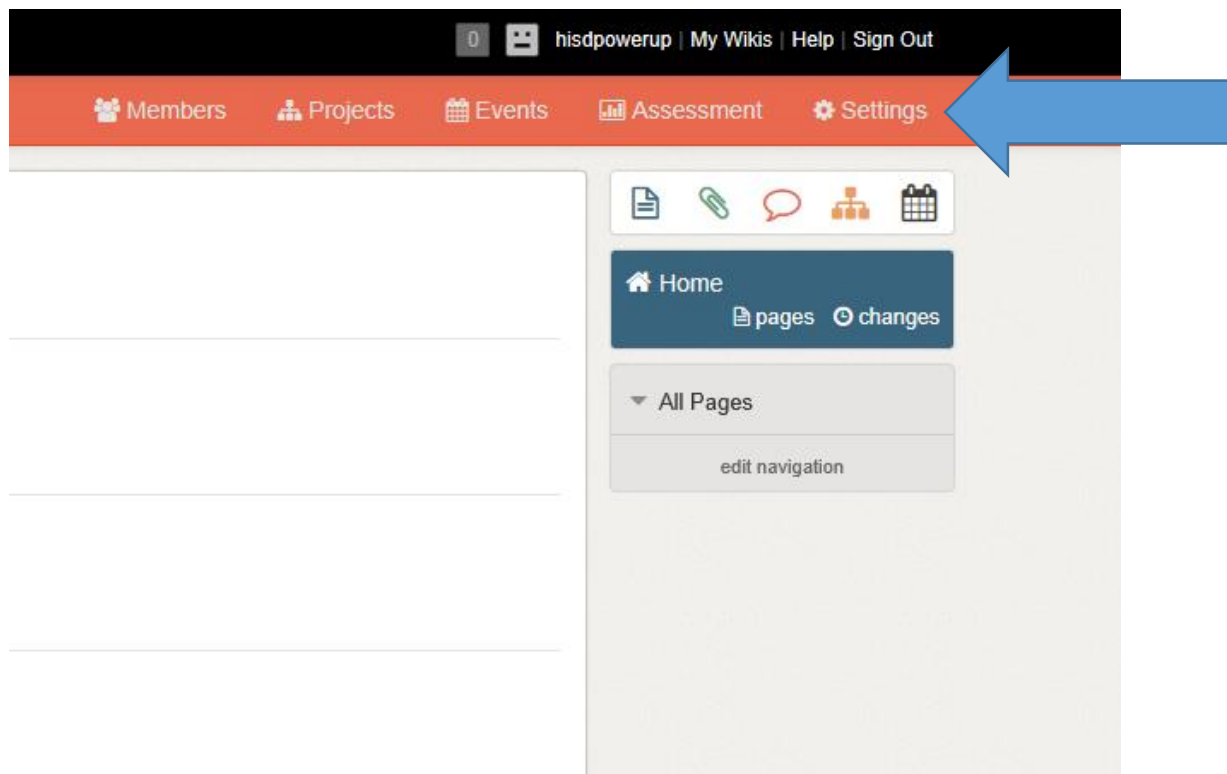

In order for your students to see all your great information on the wiki, we need to make it public.

Target Audience: Anyone with a wiki, using it for the classroom

Prerequisite: Already created a wiki account

Be the end of this tutorial you will be able to:

- Make your wiki public

A wiki doesn't do any good if only you can see it. Now we have to make it public. Click on settings at the top of your homepage.

Account Verification

In order to create publicly viewable wikis, your account must be verified. We perform this verification to prevent spammers from abusing Wikispaces and doing really bad things on the Internet. Once you are verified, you can create as many publicly viewable wikis as you'd like.

You can read more about this process at our [blog](#).

Here's how you can verify your account:

Phone Verification

If you have a US phone number, you can verify your account by phone.
